Reasons for Allowance

The independent Claims recite receiving requests from mobile stations at mobile switching centers, leaving messages for landline and wireless telephones and a limitation for the following:

"a mobile network interface coupled to a first mobile switching center serving said wireless device, said mobile network interface to receive a request through said mobile switching center to leave a message for a landline communication device number, and wherein the mobile network interface is further to receive call history information associated with the requests"

The prior art of record teaches leaving messages in wireless networks for landline and wireless telephones. The prior art of record is different because call history information is not received with the requests as recited in the limitation. New search updates revealed no other prior art which teaches the limitation in the context of the claims. Therefore, Claims 18-45 are indicated allowable.

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Attorney **William E. Curry**, Registration No. 43,572 on 10/14/05.

The application has been amended as follows:

Claim 18

Line 8, after '—interface—' delete '---is further capable of receiving---'

Line 8, after '---interface---' add '---receives---'
